

Medicine on the go

MEDI-GO

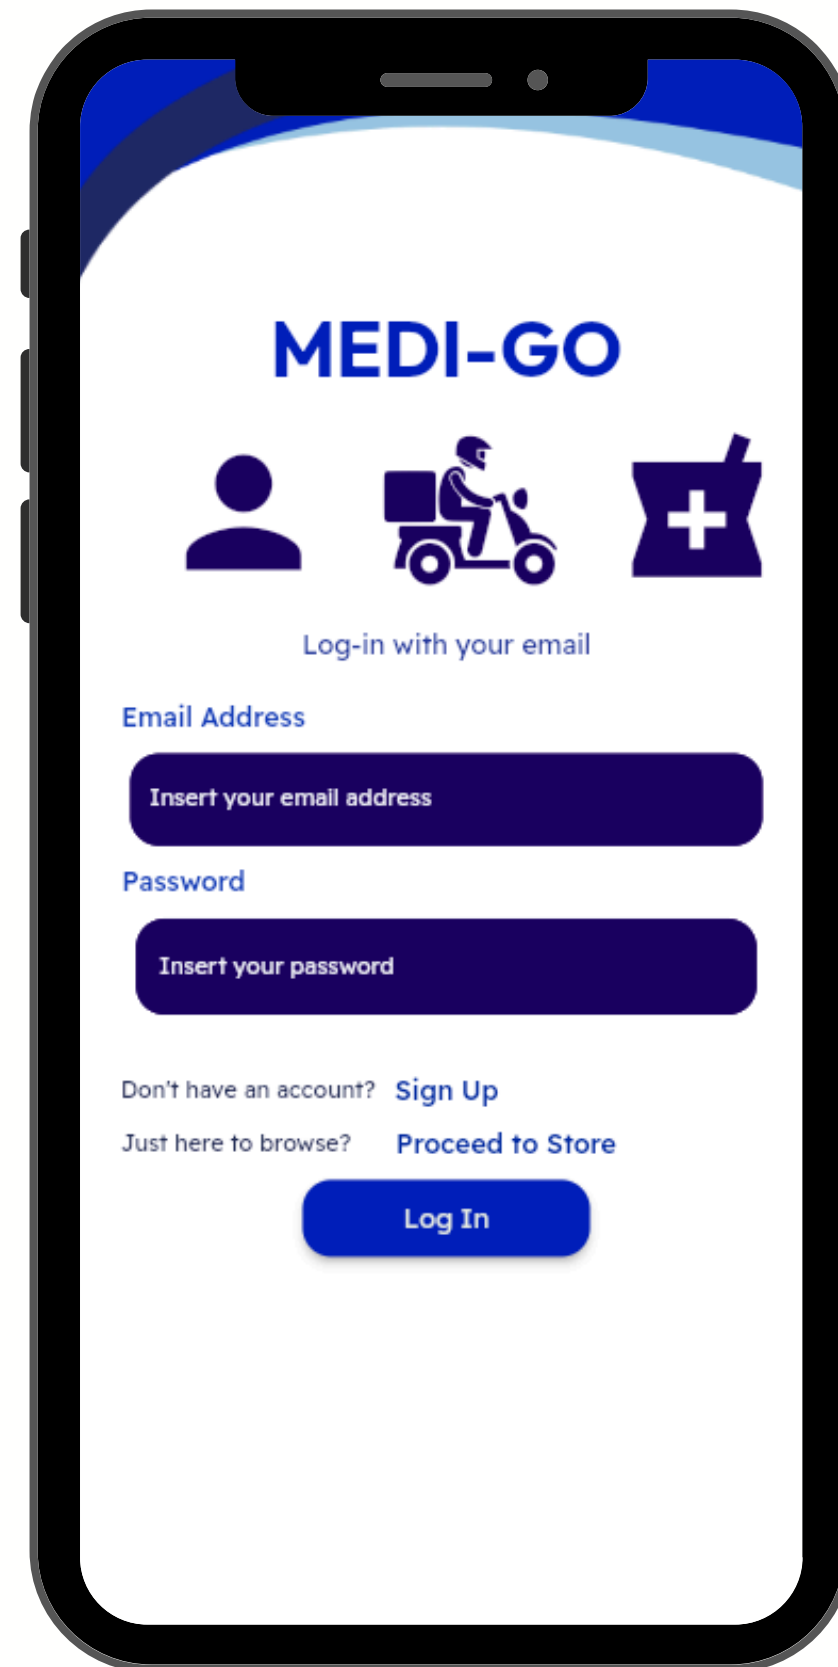

DESCRIPTION

"MEDI-GO" is an online medicine delivery mobile application designed to provide a convenient solution for all your over-the-counter (OTC) medicine needs. MEDI-GO allows you to access a wide range of pharmaceutical products and deliver them right to your doorstep.

Login

Features

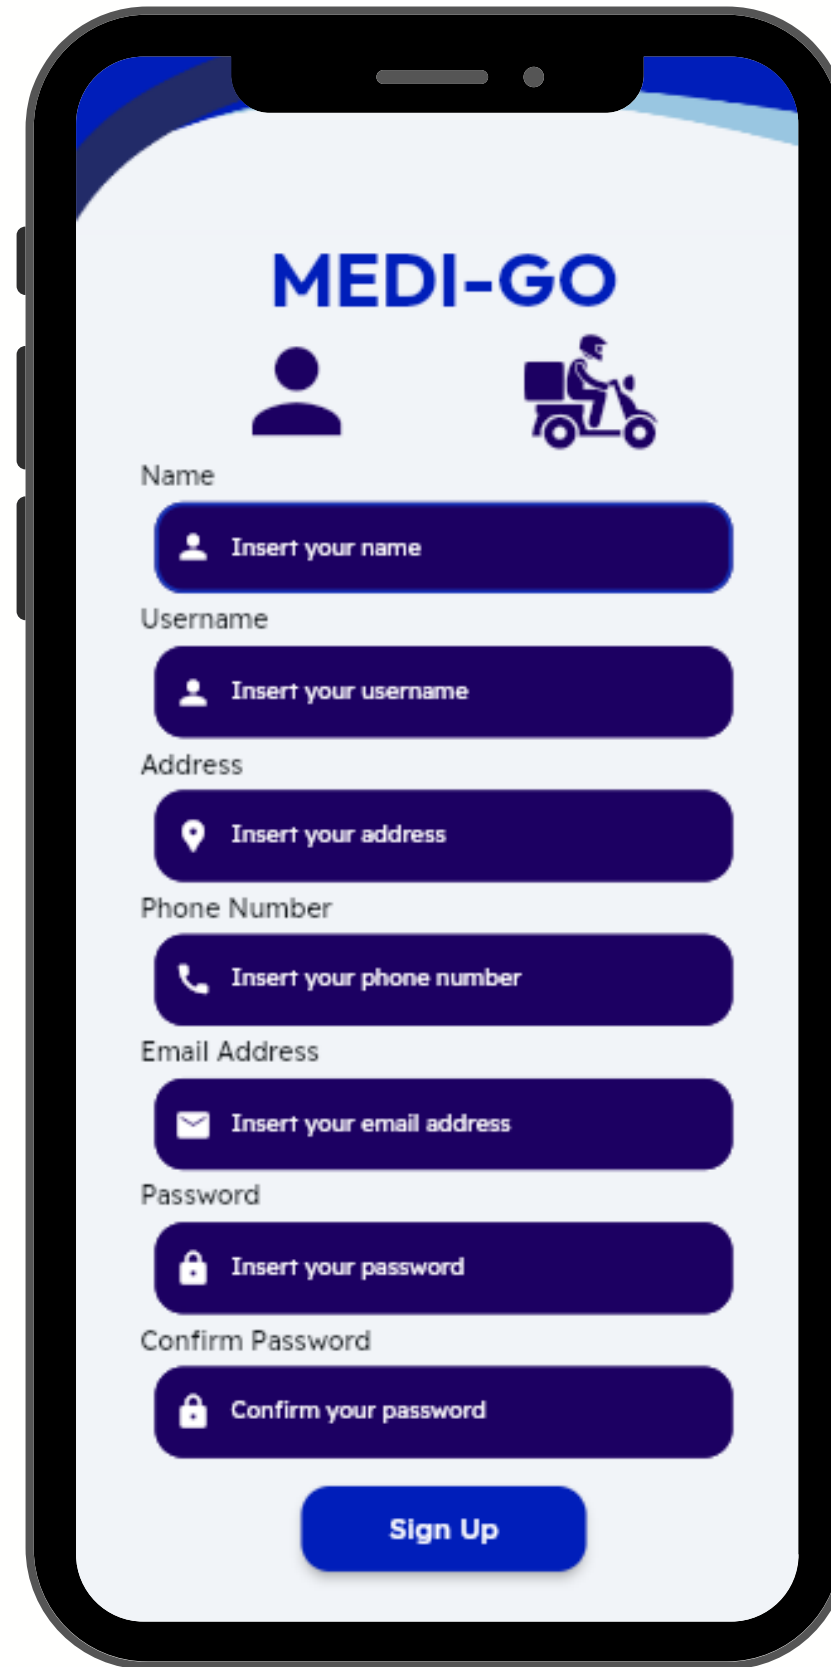

● Role-Based Access Control

Allows users to log in and be assigned different roles (such as customer, rider, and pharmacist), each with specific permissions and access levels within the application.

Sign Up

Features

A mobile app registration form for 'MEDI-GO'. The form is displayed on a smartphone screen. At the top, the 'MEDI-GO' logo is shown in blue, with a person icon and a delivery person on a scooter icon below it. The form consists of several input fields, each with a label and a placeholder text: 'Name' (placeholder: 'Insert your name'), 'Username' (placeholder: 'Insert your username'), 'Address' (placeholder: 'Insert your address'), 'Phone Number' (placeholder: 'Insert your phone number'), 'Email Address' (placeholder: 'Insert your email address'), 'Password' (placeholder: 'Insert your password'), and 'Confirm Password' (placeholder: 'Confirm your password'). Each input field has a small icon representing the field type (person, phone, email, lock). At the bottom of the form is a blue 'Sign Up' button.

● User Registration with Role Selection

Users select their role during the registration process. This role determines the user's permissions and access levels within the application once they log in.

CUSTOMER

Home Page

Features

● Search Bar

allows users to search for specific products (medicines) by entering keywords. It enhances user experience by making it easy to find desired items quickly.

● Add to Cart functionality

allows users to select products (medicines) they wish to purchase and store them in a virtual cart before proceeding to checkout.

● Filter

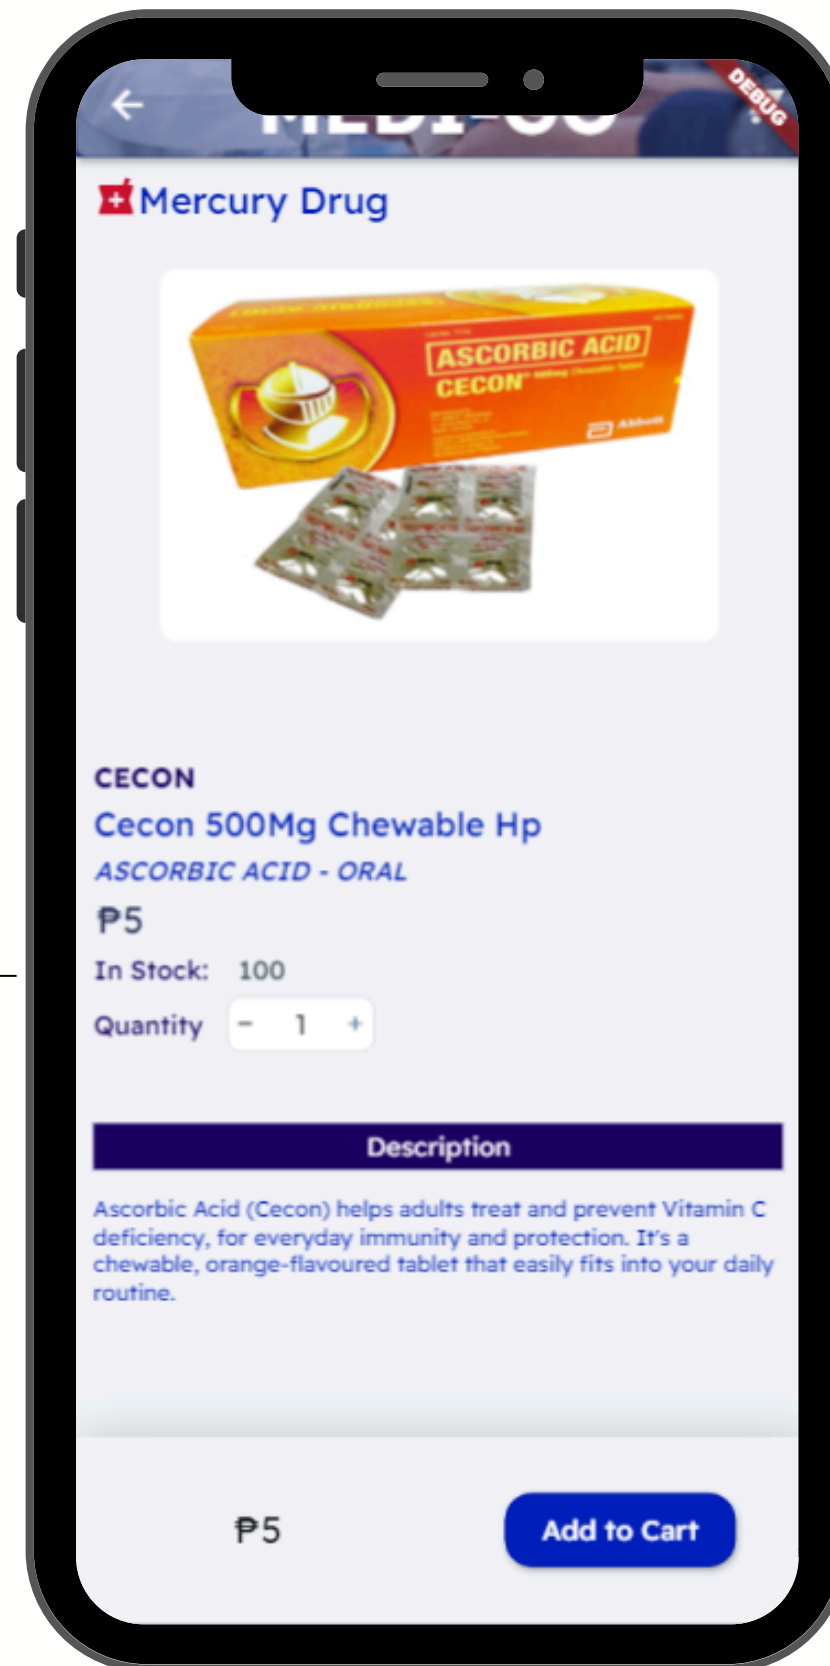

- Tab Bars for Filtering by Source: A UI component where users can switch between different views (e.g., All, Mercury, and Pharmacy) using tab buttons.
- Dropdown for Category Filtering: A dropdown menu that allows users to filter the displayed items by a specific category of medicine.

Product Page

Features

● Quantity Management

Enables users to adjust the number of units of each product they wish to purchase directly from the cart or product listing.

Enables users to add items to a virtual cart for purchase, providing a seamless shopping experience.
